

November 25, 2018

To my dear patients and families,

It has been an incredible experience and honor to provide care for you, my beloved patients and their families, for the past 20 years. I have watched you grow from infants to young adults, I have cared for you as you start careers and become parents. Many of you now bring your children to our office. You are all special, all unique, and we have been through a lot together- births, deaths, school choices, sports. I am so proud of so many of you - for perfect attendance and honor roll, for high school scholarships and college scholarships. I have cheered for you as you have participated in sports and dance and music. I have prayed for you during the difficult times of depression and loss of loved ones.

It has been a pleasure and a privilege to work with Dr Blackwell White for the past 20 years. The practice of medicine has changed in many ways over these years and she has managed to keep a small practice like ours at the forefront in using electronic medical records and adapting to new insurance requirements and vaccine recommendations. We have now joined Lifebridge Health and moved into a beautiful new facility. This is all due to her leadership.

An opportunity for me to practice a different type of medicine, without the constraints of multiple different insurance companies, has arisen and after much thought and prayer I have decided that this is the right choice for me at this time.

I am confident that you will be in good hands with Dr Blackwell White and our nurse practitioner Mrs Moses and our wonderful staff. Your medical records will be here at this office. I will truly miss each and every one of you. Thank you for letting me be a part of your lives.

Sincerely,

Cheryl L. Parks, MD
